

# Habitat for Humanity can help with home repairs.

**Do you need help with home repairs so you can safely continue to live independently in your home?**

**Habitat for Humanity's Critical Home Repair/Aging in Place program can help with repairs that:**

- maintain sound condition of your home
- improve weatherization and energy efficiency
- alleviate critical health, life and safety issues
- fix code violations
- help older adults age safely in their homes, maintain a healthy lifestyle and live independently

**To qualify for the program:**

- Habitat staff inspects disrepair of home
- Household income at or under 60% of area median income - up to \$58,000 or \$71,000 for two people depending on location.
- Home must be owner occupied and be located within Essex County

**Examples of recent repairs:**

- Add wheelchair ramp
- Fix rotted floor
- Replace unsafe basement stairs
- Fix a leaky roof

Homeowners are typically able to remain in their homes while the home improvements are being completed. Projects range in complexity and are dependent upon available funding for each.
