VETERANS SERVICES

The mission of the City of Peabody Veterans Services Department is to assist veterans and their dependents by providing services that may include applying for benefits, both state and federal, helping in employment and under employment situations along with monetary support, if qualified under the State 115 benefit program. Services may also include help with applying for V.A. medical care and services.

Veteran Services Department is also responsible for all discharge records for the City of Peabody veterans. It is recommended that all veterans ensure that a copy of their DD214 is kept at this office if they apply for any future benefits.

Call (978) 538-5925 for an appointment if you are not able to visit during business hours. If you have any questions about VA benefits, please call (978) 538-5925.
